STANDING ORDER 43(a)**

**AVIS DE MOTION DE CENSURE  
CONFORMÉMENT À L'ARTICLE  
43(a) DU RÈGLEMENT**

2. Mrs McLeod - Whereas the Provincial Auditor has failed to give the financial statements of the Province of Ontario his absolute approval and could only give the statements a "qualified" approval, the first time such a negative opinion has ever been presented by the Auditor concerning the financial statements of the province;

And whereas the Provincial Auditor has stated that the NDP government deliberately understated the 1992-93 deficit by delaying its annual contribution of \$528 million to the Teacher's Pension fund;

And whereas the Provincial Auditor has stated that the NDP government has under-reported the province's deficit by \$1.5 billion over the past three years because of the use of deceptive bookkeeping practices, such as the extensive use of pre-flow expense payments;

And whereas the deficit is already \$500 million higher than the Finance Minister originally estimated in his 1993-94 budget;

And whereas credit rating agencies in the United States and Canada have warned that Ontario will face a downgrade of its credit rating if the provincial deficit rises above \$10 billion;

And whereas the Provincial Auditor's reservations about the accounting practices of the Province of Ontario in the maintenance of its financial statements have thrown the integrity of the province's fiscal situation into doubt in the mind of the public;

And whereas the NDP has undertaken to make "integrity in government" the centre of an NDP administration and made specific reference to that undertaking in the first speech from the Throne;

And whereas the Liberal Caucus believes that the NDP government has shown, by its financial incompetence, that it is not fit to govern this province; therefore, pursuant to Standing Order 43(a), the House no longer has confidence in the government. October 27, 1993.

**PRIVATE MEMBERS' NOTICES OF  
MOTIONS**

**AVIS DE MOTIONS DES  
DÉPUTÉS**

20. Mr Wilson (Simcoe West) - Resolution - That, in the opinion of this House, since this Government has allocated \$647 million to the reform of long-term care services and of these funds \$150 million is coming from increased user fees to residents in long-term care facilities with the result being that many seniors, on limited incomes, will be faced with rate increases of approximately 32 percent effective immediately; and

since this Government is expected to flow the remaining \$497 million over the next four years, while residents in long-term care facilities are being forced to shoulder this 32 percent increase in year one;

therefore, the Government of Ontario should amend Bill 101, An Act to amend certain Acts concerning Long-Term Care, to ensure this increase is phased-in over the next four years, or over the time it takes the Government to complete its funding commitment. July 13, 1993.

21. Mr Mammoliti - Resolution - That, in the opinion of this House, recognizing that people are concerned about the costliness and complexity of local government, the Government of Ontario should reiterate its commitment to strong, accountable, open and accessible local government and move to implement the draft legislation package OPEN LOCAL GOVERNMENT, and further, the Government of Ontario should set up a task force to study an efficient and unified form of local government for Metropolitan Toronto. July 20, 1993.

22. Mrs Mathysen - Resolution - That, in the opinion of this House, since the Canadian magazine industry is seriously threatened by the current editorial dumping of "split-run" foreign periodicals in which advertising directed at Canadians is placed only in copies circulated in Canada; and

since foreign magazines have already recovered their editorial costs in their home markets; and

since such practises have led to discounted ad pricing, with low rates that Canadian magazines cannot match because of the costs of writing, illustration, photography and design for their content in Canada,

therefore, this House urges the Government of Ontario to support investment and growth of the Canadian magazine industry by calling upon the federal Conservative government to end "split-run" editions by vigorously enforcing current legislation which prevents "editorial dumping"; and to quickly act on the interim recommendations of the Task Force on the Canadian Magazine Industry to have any investment in magazines by a non-Canadian subject to review by Investment Canada. July 21, 1993.

23. Mr Runciman - Resolution - That, in the opinion of this House, since Ontario doctors bill the Ontario Health Insurance Plan about \$5 billion each year; and

since the cost of health care now consumes \$17 billion a year or a full third of the provincial budget; and

since the government is attempting, by all means possible, to curb health care spending; and

since 1971 the State of New York has implemented a very successful program whereby licensed practitioners are assisted by "physician assistants" who are trained to perform approximately 70 percent of the clinical procedures routinely performed by licensed general practitioners for approximately half the annual salary of licensed practitioners;

therefore, the Minister of Health should develop and introduce in this House amendments to the Regulated Health Professions Act, 1991 and other legislation as is necessary to establish the regulated health profession for Physician Assistants. July 28, 1993.

37. Mrs Sullivan - Resolution - That, in the opinion of this House, an Ontario Health Research Council should be established at the earliest possible opportunity as a Crown Corporation, with an independent Board of Directors, reporting to the legislature through the Minister of Health. The council would develop a strategic approach, set priorities, guide, co-ordinate and develop health research in Ontario, encourage public and private sector co-operation in health research, stimulate technology transfer and development, and allocate public funds to health research projects. The council would incorporate multidisciplinary evaluative research, health systems research, disease-related research in its mandate, and would communicate information about the results of research between the research community and the general public. March 28, 1994.

41. Mr Cousens - Resolution - That, in the opinion of this House, recognizing that recall provides citizens with the opportunity to exercise accountability over their elected officials, and

since other jurisdictions in Canada are exploring the recall option in their provincial legislatures, and

since evidence from other jurisdictions outside of Canada indicates that recall is rarely abused, and

since the recall process should explore the ethical criteria for recall of an elected officer, and

that the process in which to initiate the recall process may involve a review of several checks and balances that could be ascertained by further guidance from legislative officials and the public,

the Standing Committee on the Legislative Assembly be required to develop a recall process for consideration by the Legislature and to present their recommendations and options to the Legislative Assembly by the Spring Session in 1995. April 27, 1994.

**SPECIAL DEBATES****DÉBATS SPÉCIAUX****OPPOSITION DAY****JOUR DE L'OPPOSITION**

Mrs McLeod - Whereas 590,000 men and women in Ontario are currently unemployed and whereas we have seen record levels of unemployment in the last three years of NDP government;

Whereas Ontario's young people are now facing a real unemployment rate of 30% amidst the worst economic conditions since the Depression;

Whereas Ontario suffered the majority of Canadian job losses during the recession, and while, once an economic leader in Canada, now lags behind the recovery seen in the rest of the country;

Whereas the NDP have killed jobs by raising taxes by \$4 billion - the largest increase since the Tories were in office;

Whereas for every 27 people who went back to work in the rest of the country, only 1 person went back to work in Ontario in the first four months of 1994;

Whereas the NDP are content to allow unemployment to remain at 9 per cent until 1997 - an unacceptable level;

Whereas at a time when the people of Ontario were looking for bold new ideas and leadership, the NDP have decided to throw in the towel and accept high unemployment levels as part of Ontario's future for years to come;

Whereas NDP government policies, such as their anti-business legislation have only made the employment outlook in Ontario worse,

Whereas the NDP budget is almost as full of more empty rhetoric and as unable to put people back to work as the Tories' economic framework;

Whereas Mike Harris and the Progressive Conservative Party have put forward an unrealistic plan that simply won't work,

Whereas the plan of the Progressive Conservative Party is based on unachievable promises, unsound calculations and flagrant contradictions;

And, whereas Lyn McLeod and the Ontario Liberal Party have set a target of reducing unemployment to six per cent in five years, and have put forward the only realistic plan for getting Ontario working again, which includes:

- Reducing taxes by 5% over five years;
- Reducing the paper burden by cutting the cost of doing business with government by 50%;
- Balancing the province's operating budget within the government's first mandate, without hiding debt off book.

- Scrapping programs that aren't working, or are hurting business, including:
  - The failed \$1.1 billion Jobs Ontario Training program;
  - The job-killing sections of Bill 40;
  - The \$30 million bureaucratic advocacy legislation;
  - The \$30 million Interim Waste Authority; and
  - Over \$5 million spent for increased NDP political staff;
- Special help for small business such as:
  - Examining the establishment of tax credits for new hiring, and for venture capital companies; and
  - More help for small and medium-sized companies to tap into export markets;

Therefore, this House resolves that the recommendations contained in the Lyn McLeod Task Force on Jobs be immediately adopted and implemented. Premier of Ontario. To be debated May 17, 1994.

2. Mrs McLeod - Whereas the Provincial Auditor has failed to give the financial statements of the Province of Ontario his absolute approval and could only give the statements a "qualified" approval, the first time such a negative opinion has ever been presented by the Auditor concerning the financial statements of the province;

And whereas the Provincial Auditor has stated that the NDP government deliberately understated the 1992-93 deficit by delaying its annual contribution of \$528 million to the Teacher's Pension fund;

And whereas the Provincial Auditor has stated that the NDP government has under-reported the province's deficit by \$1.5 billion over the past three years because of the use of deceptive bookkeeping practices, such as the extensive use of pre-flow expense payments;

And whereas the deficit is already \$500 million higher than the Finance Minister originally estimated in his 1993-94 budget;

And whereas credit rating agencies in the United States and Canada have warned that Ontario will face a downgrade of its credit rating if the provincial deficit rises above \$10 billion;

And whereas the Provincial Auditor's reservations about the accounting practices of the Province of Ontario in the maintenance of its financial statements have thrown the integrity of the province's fiscal situation into doubt in the mind of the public;

And whereas the NDP has undertaken to make "integrity in government" the centre of an NDP administration and made specific reference to that undertaking in the first speech from the Throne;

And whereas the Liberal Caucus believes that the NDP government has shown, by its financial incompetence, that it is not fit to govern this province; therefore, pursuant to Standing Order 43(a), the House no longer has confidence in the government. October 27, 1993.

MOTIONS**

**AVIS DE MOTIONS DES  
DÉPUTÉS**

20. Mr Wilson (Simcoe West) - Resolution - That, in the opinion of this House, since this Government has allocated \$647 million to the reform of long-term care services and of these funds \$150 million is coming from increased user fees to residents in long-term care facilities with the result being that many seniors, on limited incomes, will be faced with rate increases of approximately 32 percent effective immediately; and

since this Government is expected to flow the remaining \$497 million over the next four years, while residents in long-term care facilities are being forced to shoulder this 32 percent increase in year one;

therefore, the Government of Ontario should amend Bill 101, An Act to amend certain Acts concerning Long-Term Care, to ensure this increase is phased-in over the next four years, or over the time it takes the Government to complete its funding commitment.  
July 13, 1993.

21. Mr Mammoliti - Resolution - That, in the opinion of this House, recognizing that people are concerned about the costliness and complexity of local government, the Government of Ontario should reiterate its commitment to strong, accountable, open and accessible local government and move to implement the draft legislation package OPEN LOCAL GOVERNMENT, and further, the Government of Ontario should set up a task force to study an efficient and unified form of local government for Metropolitan Toronto. July 20, 1993.

22. Mrs Mathysen - Resolution - That, in the opinion of this House, since the Canadian magazine industry is seriously threatened by the current editorial dumping of "split-run" foreign periodicals in which advertising directed at Canadians is placed only in copies circulated in Canada; and

since foreign magazines have already recovered their editorial costs in their home markets; and

since such practises have led to discounted ad pricing, with low rates that Canadian magazines cannot match because of the costs of writing, illustration, photography and design for their content in Canada,

therefore, this House urges the Government of Ontario to support investment and growth of the Canadian magazine industry by calling upon the federal Conservative government to end "split-run" editions by vigorously enforcing current legislation which prevents "editorial dumping"; and to quickly act on the interim recommendations of the Task Force on the Canadian Magazine Industry to have any investment in magazines by a non-Canadian subject to review by Investment Canada. July 21, 1993.

23. Mr Runciman - Resolution - That, in the opinion of this House, since Ontario doctors bill the Ontario Health Insurance Plan about \$5 billion each year; and

since the cost of health care now consumes \$17 billion a year or a full third of the provincial budget; and

since the government is attempting, by all means possible, to curb health care spending; and

since 1971 the State of New York has implemented a very successful program whereby licensed practitioners are assisted by "physician assistants" who are trained to perform approximately 70 percent of the clinical procedures routinely performed by licensed general practitioners for approximately half the annual salary of licensed practitioners;

therefore, the Minister of Health should develop and introduce in this House amendments to the Regulated Health Professions Act, 1991 and other legislation as is necessary to establish the regulated health profession for Physician Assistants. July 28, 1993.

37. Mrs Sullivan - Resolution - That, in the opinion of this House, an Ontario Health Research Council should be established at the earliest possible opportunity as a Crown Corporation, with an independent Board of Directors, reporting to the legislature through the Minister of Health. The council would develop a strategic approach, set priorities, guide, co-ordinate and develop health research in Ontario, encourage public and private sector co-operation in health research, stimulate technology transfer and development, and allocate public funds to health research projects. The council would incorporate multidisciplinary evaluative research, health systems research, disease-related research in its mandate, and would communicate information about the results of research between the research community and the general public. March 28, 1994.

41. Mr Cousens - Resolution - That, in the opinion of this House, recognizing that recall provides citizens with the opportunity to exercise accountability over their elected officials, and

since other jurisdictions in Canada are exploring the recall option in their provincial legislatures, and

since evidence from other jurisdictions outside of Canada indicates that recall is rarely abused, and

since the recall process should explore the ethical criteria for recall of an elected officer, and

that the process in which to initiate the recall process may involve a review of several checks and balances that could be ascertained by further guidance from legislative officials and the public,

the Standing Committee on the Legislative Assembly be required to develop a recall process for consideration by the Legislature and to present their recommendations and options to the Legislative Assembly by the Spring Session in 1995. April 27, 1994.

**SPECIAL DEBATES****DÉBATS SPÉCIAUX****OPPOSITION DAY****JOUR DE L'OPPOSITION**

2. Mrs McLeod - Whereas 590,000 men and women in Ontario are currently unemployed and whereas we have seen record levels of unemployment in the last three years of NDP government;

Whereas Ontario's young people are now facing a real unemployment rate of 30% amidst the worst economic conditions since the Depression;

Whereas Ontario suffered the majority of Canadian job losses during the recession, and while, once an economic leader in Canada, now lags behind the recovery seen in the rest of the country;

Whereas the NDP have killed jobs by raising taxes by \$4 billion - the largest increase since the Tories were in office;

Whereas for every 27 people who went back to work in the rest of the country, only 1 person went back to work in Ontario in the first four months of 1994;

Whereas the NDP are content to allow unemployment to remain at 9 per cent until 1997 - an unacceptable level;

Whereas at a time when the people of Ontario were looking for bold new ideas and leadership, the NDP have decided to throw in the towel and accept high unemployment levels as part of Ontario's future for years to come;

Whereas NDP government policies, such as their anti-business legislation have only made the employment outlook in Ontario worse,

Whereas the NDP budget is almost as full of more empty rhetoric and as unable to put people back to work as the Tories' economic framework;

Whereas Mike Harris and the Progressive Conservative Party have put forward an unrealistic plan that simply won't work,

Whereas the plan of the Progressive Conservative Party is based on unachievable promises, unsound calculations and flagrant contradictions;

And, whereas Lyn McLeod and the Ontario Liberal Party have set a target of reducing unemployment to six per cent in five years, and have put forward the only realistic plan for getting Ontario working again, which includes:

- Reducing taxes by 5% over five years;
- Reducing the paper burden by cutting the cost of doing business with government by 50%;
- Balancing the province's operating budget within the government's first mandate, without hiding debt off book.

- Scrapping programs that aren't working, or are hurting business, including:
  - The failed \$1.1 billion Jobs Ontario Training program;
  - The job-killing sections of Bill 40;
  - The \$30 million bureaucratic advocacy legislation;
  - The \$30 million Interim Waste Authority; and
  - Over \$5 million spent for increased NDP political staff;
- Special help for small business such as:
  - Examining the establishment of tax credits for new hiring, and for venture capital companies; and
  - More help for small and medium-sized companies to tap into export markets;

Therefore, this House resolves that the recommendations contained in the Lyn McLeod Task Force on Jobs be immediately adopted and implemented. Premier of Ontario. To be debated May 17, 1994.

2. Mrs McLeod - Whereas the Provincial Auditor has failed to give the financial statements of the Province of Ontario his absolute approval and could only give the statements a "qualified" approval, the first time such a negative opinion has ever been presented by the Auditor concerning the financial statements of the province;

And whereas the Provincial Auditor has stated that the NDP government deliberately understated the 1992-93 deficit by delaying its annual contribution of \$528 million to the Teacher's Pension fund;

And whereas the Provincial Auditor has stated that the NDP government has under-reported the province's deficit by \$1.5 billion over the past three years because of the use of deceptive bookkeeping practices, such as the extensive use of pre-flow expense payments;

And whereas the deficit is already \$500 million higher than the Finance Minister originally estimated in his 1993-94 budget;

And whereas credit rating agencies in the United States and Canada have warned that Ontario will face a downgrade of its credit rating if the provincial deficit rises above \$10 billion;

And whereas the Provincial Auditor's reservations about the accounting practices of the Province of Ontario in the maintenance of its financial statements have thrown the integrity of the province's fiscal situation into doubt in the mind of the public;

And whereas the NDP has undertaken to make "integrity in government" the centre of an NDP administration and made specific reference to that undertaking in the first speech from the Throne;

And whereas the Liberal Caucus believes that the NDP government has shown, by its financial incompetence, that it is not fit to govern this province; therefore, pursuant to Standing Order 43(a), the House no longer has confidence in the government. October 27, 1993.

MOTIONS**

**AVIS DE MOTIONS DES  
DÉPUTÉS**

20. Mr Wilson (Simcoe West) - Resolution - That, in the opinion of this House, since this Government has allocated \$647 million to the reform of long-term care services and of these funds \$150 million is coming from increased user fees to residents in long-term care facilities with the result being that many seniors, on limited incomes, will be faced with rate increases of approximately 32 percent effective immediately; and

since this Government is expected to flow the remaining \$497 million over the next four years, while residents in long-term care facilities are being forced to shoulder this 32 percent increase in year one;

therefore, the Government of Ontario should amend Bill 101, An Act to amend certain Acts concerning Long-Term Care, to ensure this increase is phased-in over the next four years, or over the time it takes the Government to complete its funding commitment. July 13, 1993.

21. Mr Mammoliti - Resolution - That, in the opinion of this House, recognizing that people are concerned about the costliness and complexity of local government, the Government of Ontario should reiterate its commitment to strong, accountable, open and accessible local government and move to implement the draft legislation package OPEN LOCAL GOVERNMENT, and further, the Government of Ontario should set up a task force to study an efficient and unified form of local government for Metropolitan Toronto. July 20, 1993.

22. Mrs Mathysen - Resolution - That, in the opinion of this House, since the Canadian magazine industry is seriously threatened by the current editorial dumping of "split-run" foreign periodicals in which advertising directed at Canadians is placed only in copies circulated in Canada; and

since foreign magazines have already recovered their editorial costs in their home markets; and

since such practises have led to discounted ad pricing, with low rates that Canadian magazines cannot match because of the costs of writing, illustration, photography and design for their content in Canada,

therefore, this House urges the Government of Ontario to support investment and growth of the Canadian magazine industry by calling upon the federal Conservative government to end "split-run" editions by vigorously enforcing current legislation which prevents "editorial dumping"; and to quickly act on the interim recommendations of the Task Force on the Canadian Magazine Industry to have any investment in magazines by a non-Canadian subject to review by Investment Canada. July 21, 1993.

23. Mr Runciman - Resolution - That, in the opinion of this House, since Ontario doctors bill the Ontario Health Insurance Plan about \$5 billion each year; and

since the cost of health care now consumes \$17 billion a year or a full third of the provincial budget; and

since the government is attempting, by all means possible, to curb health care spending; and

since 1971 the State of New York has implemented a very successful program whereby licensed practitioners are assisted by "physician assistants" who are trained to perform approximately 70 percent of the clinical procedures routinely performed by licensed general practitioners for approximately half the annual salary of licensed practitioners;

therefore, the Minister of Health should develop and introduce in this House amendments to the Regulated Health Professions Act, 1991 and other legislation as is necessary to establish the regulated health profession for Physician Assistants. July 28, 1993.

37. Mrs Sullivan - Resolution - That, in the opinion of this House, an Ontario Health Research Council should be established at the earliest possible opportunity as a Crown Corporation, with an independent Board of Directors, reporting to the legislature through the Minister of Health. The council would develop a strategic approach, set priorities, guide, co-ordinate and develop health research in Ontario, encourage public and private sector co-operation in health research, stimulate technology transfer and development, and allocate public funds to health research projects. The council would incorporate multidisciplinary evaluative research, health systems research, disease-related research in its mandate, and would communicate information about the results of research between the research community and the general public. March 28, 1994.

41. Mr Cousens - Resolution - That, in the opinion of this House, recognizing that recall provides citizens with the opportunity to exercise accountability over their elected officials, and

since other jurisdictions in Canada are exploring the recall option in their provincial legislatures, and

since evidence from other jurisdictions outside of Canada indicates that recall is rarely abused, and

since the recall process should explore the ethical criteria for recall of an elected officer, and

that the process in which to initiate the recall process may involve a review of several checks and balances that could be ascertained by further guidance from legislative officials and the public,

the Standing Committee on the Legislative Assembly be required to develop a recall process for consideration by the Legislature and to present their recommendations and options to the Legislative Assembly by the Spring Session in 1995. April 27, 1994.

42. Mr Sola - Resolution - That in the opinion of this House, consumers in Ontario are in need of greater protection against sellers or lenders who make false, misleading or deceptive representations or innocent misrepresentations, than is currently provided for in consumer protection legislation such as the Business Practices Act and the Consumer Protection Act; and that to the extent to which existing legislation does offer a degree of protection to the consumer, such provisions should be more vigorously enforced, therefore the Government of Ontario should establish a select committee of this House to review existing consumer protection legislation so as to provide consumers with an improved comprehensive protection program. May 16, 1994.

**SPECIAL DEBATES****DÉBATS SPÉCIAUX****OPPOSITION DAY****JOUR DE L'OPPOSITION**

2. Mrs McLeod - Whereas 590,000 men and women in Ontario are currently unemployed and whereas we have seen record levels of unemployment in the last three years of NDP government;

Whereas Ontario's young people are now facing a real unemployment rate of 30% amidst the worst economic conditions since the Depression;

Whereas Ontario suffered the majority of Canadian job losses during the recession, and while, once an economic leader in Canada, now lags behind the recovery seen in the rest of the country;

Whereas the NDP have killed jobs by raising taxes by \$4 billion - the largest increase since the Tories were in office;

Whereas for every 27 people who went back to work in the rest of the country, only 1 person went back to work in Ontario in the first four months of 1994;

Whereas the NDP are content to allow unemployment to remain at 9 per cent until 1997 - an unacceptable level;

Whereas at a time when the people of Ontario were looking for bold new ideas and leadership, the NDP have decided to throw in the towel and accept high unemployment levels as part of Ontario's future for years to come;

Whereas NDP government policies, such as their anti-business legislation have only made the employment outlook in Ontario worse,

Whereas the NDP budget is almost as full of more empty rhetoric and as unable to put people back to work as the Tories' economic framework;

Whereas Mike Harris and the Progressive Conservative Party have put forward an unrealistic plan that simply won't work,

Whereas the plan of the Progressive Conservative Party is based on unachievable promises, unsound calculations and flagrant contradictions;

And, whereas Lyn McLeod and the Ontario Liberal Party have set a target of reducing unemployment to six per cent in five years, and have put forward the only realistic plan for getting Ontario working again, which includes:

- Reducing taxes by 5% over five years;
- Reducing the paper burden by cutting the cost of doing business with government by 50%;
- Balancing the province's operating budget within the government's first mandate, without hiding debt off book.

- Scrapping programs that aren't working, or are hurting business, including:
  - The failed \$1.1 billion Jobs Ontario Training program;
  - The job-killing sections of Bill 40;
  - The \$30 million bureaucratic advocacy legislation;
  - The \$30 million Interim Waste Authority; and
  - Over \$5 million spent for increased NDP political staff;
- Special help for small business such as:
  - Examining the establishment of tax credits for new hiring, and for venture capital companies; and
  - More help for small and medium-sized companies to tap into export markets;

Therefore, this House resolves that the recommendations contained in the Lyn McLeod Task Force on Jobs be immediately adopted and implemented. Premier of Ontario. To be debated today.

2. Mrs McLeod - Whereas the Provincial Auditor has failed to give the financial statements of the Province of Ontario his absolute approval and could only give the statements a "qualified" approval, the first time such a negative opinion has ever been presented by the Auditor concerning the financial statements of the province;

And whereas the Provincial Auditor has stated that the NDP government deliberately understated the 1992-93 deficit by delaying its annual contribution of \$528 million to the Teacher's Pension fund;

And whereas the Provincial Auditor has stated that the NDP government has under-reported the province's deficit by \$1.5 billion over the past three years because of the use of deceptive bookkeeping practices, such as the extensive use of pre-flow expense payments;

And whereas the deficit is already \$500 million higher than the Finance Minister originally estimated in his 1993-94 budget;

And whereas credit rating agencies in the United States and Canada have warned that Ontario will face a downgrade of its credit rating if the provincial deficit rises above \$10 billion;

And whereas the Provincial Auditor's reservations about the accounting practices of the Province of Ontario in the maintenance of its financial statements have thrown the integrity of the province's fiscal situation into doubt in the mind of the public;

And whereas the NDP has undertaken to make "integrity in government" the centre of an NDP administration and made specific reference to that undertaking in the first speech from the Throne;

And whereas the Liberal Caucus believes that the NDP government has shown, by its financial incompetence, that it is not fit to govern this province; therefore, pursuant to Standing Order 43(a), the House no longer has confidence in the government. October 27, 1993.

MOTIONS**

**AVIS DE MOTIONS DES  
DÉPUTÉS**

20. Mr Wilson (Simcoe West) - Resolution - That, in the opinion of this House, since this Government has allocated \$647 million to the reform of long-term care services and of these funds \$150 million is coming from increased user fees to residents in long-term care facilities with the result being that many seniors, on limited incomes, will be faced with rate increases of approximately 32 percent effective immediately; and

since this Government is expected to flow the remaining \$497 million over the next four years, while residents in long-term care facilities are being forced to shoulder this 32 percent increase in year one;

therefore, the Government of Ontario should amend Bill 101, An Act to amend certain Acts concerning Long-Term Care, to ensure this increase is phased-in over the next four years, or over the time it takes the Government to complete its funding commitment. July 13, 1993.

21. Mr Mammoliti - Resolution - That, in the opinion of this House, recognizing that people are concerned about the costliness and complexity of local government, the Government of Ontario should reiterate its commitment to strong, accountable, open and accessible local government and move to implement the draft legislation package OPEN LOCAL GOVERNMENT, and further, the Government of Ontario should set up a task force to study an efficient and unified form of local government for Metropolitan Toronto. July 20, 1993.

22. Mrs Mathyssen - Resolution - That, in the opinion of this House, since the Canadian magazine industry is seriously threatened by the current editorial dumping of "split-run" foreign periodicals in which advertising directed at Canadians is placed only in copies circulated in Canada; and

since foreign magazines have already recovered their editorial costs in their home markets; and

since such practises have led to discounted ad pricing, with low rates that Canadian magazines cannot match because of the costs of writing, illustration, photography and design for their content in Canada,

therefore, this House urges the Government of Ontario to support investment and growth of the Canadian magazine industry by calling upon the federal Conservative government to end "split-run" editions by vigorously enforcing current legislation which prevents "editorial dumping"; and to quickly act on the interim recommendations of the Task Force on the Canadian Magazine Industry to have any investment in magazines by a non-Canadian subject to review by Investment Canada. July 21, 1993.

23. Mr Runciman - Resolution - That, in the opinion of this House, since Ontario doctors bill the Ontario Health Insurance Plan about \$5 billion each year; and

since the cost of health care now consumes \$17 billion a year or a full third of the provincial budget; and

since the government is attempting, by all means possible, to curb health care spending; and

since 1971 the State of New York has implemented a very successful program whereby licensed practitioners are assisted by "physician assistants" who are trained to perform approximately 70 percent of the clinical procedures routinely performed by licensed general practitioners for approximately half the annual salary of licensed practitioners;

therefore, the Minister of Health should develop and introduce in this House amendments to the Regulated Health Professions Act, 1991 and other legislation as is necessary to establish the regulated health profession for Physician Assistants. July 28, 1993.

37. Mrs Sullivan - Resolution - That, in the opinion of this House, an Ontario Health Research Council should be established at the earliest possible opportunity as a Crown Corporation, with an independent Board of Directors, reporting to the legislature through the Minister of Health. The council would develop a strategic approach, set priorities, guide, co-ordinate and develop health research in Ontario, encourage public and private sector co-operation in health research, stimulate technology transfer and development, and allocate public funds to health research projects. The council would incorporate multidisciplinary evaluative research, health systems research, disease-related research in its mandate, and would communicate information about the results of research between the research community and the general public. March 28, 1994.

41. Mr Cousens - Resolution - That, in the opinion of this House, recognizing that recall provides citizens with the opportunity to exercise accountability over their elected officials, and

since other jurisdictions in Canada are exploring the recall option in their provincial legislatures, and

since evidence from other jurisdictions outside of Canada indicates that recall is rarely abused, and

since the recall process should explore the ethical criteria for recall of an elected officer, and

that the process in which to initiate the recall process may involve a review of several checks and balances that could be ascertained by further guidance from legislative officials and the public,

the Standing Committee on the Legislative Assembly be required to develop a recall process for consideration by the Legislature and to present their recommendations and options to the Legislative Assembly by the Spring Session in 1995. April 27, 1994.

42. Mr Sola - Resolution - That in the opinion of this House, consumers in Ontario are in need of greater protection against sellers or lenders who make false, misleading or deceptive representations or innocent misrepresentations, than is currently provided for in consumer protection legislation such as the Business Practices Act and the Consumer Protection Act; and that to the extent to which existing legislation does offer a degree of protection to the consumer, such provisions should be more vigorously enforced, therefore the Government of Ontario should establish a select committee of this House to review existing consumer protection legislation so as to provide consumers with an improved comprehensive protection program. CONFORMÉMENT À L'ARTICLE

2. Mrs McLeod - Whereas the Provincial Auditor has failed to give the financial statements of the Province of Ontario his absolute approval and could only give the statements a "qualified" approval, the first time such a negative opinion has ever been presented by the Auditor concerning the financial statements of the province;

And whereas the Provincial Auditor has stated that the NDP government deliberately understated the 1992-93 deficit by delaying its annual contribution of \$528 million to the Teacher's Pension fund;

And whereas the Provincial Auditor has stated that the NDP government has under-reported the province's deficit by \$1.5 billion over the past three years because of the use of deceptive bookkeeping practices, such as the extensive use of pre-flow expense payments;

And whereas the deficit is already \$500 million higher than the Finance Minister originally estimated in his 1993-94 budget;

And whereas credit rating agencies in the United States and Canada have warned that Ontario will face a downgrade of its credit rating if the provincial deficit rises above \$10 billion;

And whereas the Provincial Auditor's reservations about the accounting practices of the Province of Ontario in the maintenance of its financial statements have thrown the integrity of the province's fiscal situation into doubt in the mind of the public;

And whereas the NDP has undertaken to make "integrity in government" the centre of an NDP administration and made specific reference to that undertaking in the first speech from the Throne;

And whereas the Liberal Caucus believes that the NDP government has shown, by its financial incompetence, that it is not fit to govern this province; therefore, pursuant to Standing Order 43(a), the House no longer has confidence in the government. October 27, 1993.

**PRIVATE MEMBERS' NOTICES OF  
MOTIONS**

**AVIS DE MOTIONS DES  
DÉPUTÉS**

20. Mr Wilson (Simcoe West) - Resolution - That, in the opinion of this House, since this Government has allocated \$647 million to the reform of long-term care services and of these funds \$150 million is coming from increased user fees to residents in long-term care facilities with the result being that many seniors, on limited incomes, will be faced with rate increases of approximately 32 percent effective immediately; and

since this Government is expected to flow the remaining \$497 million over the next four years, while residents in long-term care facilities are being forced to shoulder this 32 percent increase in year one;

therefore, the Government of Ontario should amend Bill 101, An Act to amend certain Acts concerning Long-Term Care, to ensure this increase is phased-in over the next four years, or over the time it takes the Government to complete its funding commitment.  
July 13, 1993.

21. Mr Mammoliti - Resolution - That, in the opinion of this House, recognizing that people are concerned about the costliness and complexity of local government, the Government of Ontario should reiterate its commitment to strong, accountable, open and accessible local government and move to implement the draft legislation package OPEN LOCAL GOVERNMENT, and further, the Government of Ontario should set up a task force to study an efficient and unified form of local government for Metropolitan Toronto. July 20, 1993.

22. Mrs Mathyssen - Resolution - That, in the opinion of this House, since the Canadian magazine industry is seriously threatened by the current editorial dumping of "split-run" foreign periodicals in which advertising directed at Canadians is placed only in copies circulated in Canada; and

since foreign magazines have already recovered their editorial costs in their home markets; and

since such practises have led to discounted ad pricing, with low rates that Canadian magazines cannot match because of the costs of writing, illustration, photography and design for their content in Canada;

therefore, this House urges the Government of Ontario to support investment and growth of the Canadian magazine industry by calling upon the federal Conservative government to end "split-run" editions by vigorously enforcing current legislation which prevents "editorial dumping"; and to quickly act on the interim recommendations of the Task Force on the Canadian Magazine Industry to have any investment in magazines by a non-Canadian subject to review by Investment Canada. July 21, 1993.

23. Mr Runciman - Resolution - That, in the opinion of this House, since Ontario doctors bill the Ontario Health Insurance Plan about \$5 billion each year; and

since the cost of health care now consumes \$17 billion a year or a full third of the provincial budget; and

since the government is attempting, by all means possible, to curb health care spending; and

since 1971 the State of New York has implemented a very successful program whereby licensed practitioners are assisted by "physician assistants" who are trained to perform approximately 70 percent of the clinical procedures routinely performed by licensed general practitioners for approximately half the annual salary of licensed practitioners;

therefore, the Minister of Health should develop and introduce in this House amendments to the Regulated Health Professions Act, 1991 and other legislation as is necessary to establish the regulated health profession for Physician Assistants. July 28, 1993.

37. Mrs Sullivan - Resolution - That, in the opinion of this House, an Ontario Health Research Council should be established at the earliest possible opportunity as a Crown Corporation, with an independent Board of Directors, reporting to the legislature through the Minister of Health. The council would develop a strategic approach, set priorities, guide, co-ordinate and develop health research in Ontario, encourage public and private sector co-operation in health research, stimulate technology transfer and development, and allocate public funds to health research projects. The council would incorporate multidisciplinary evaluative research, health systems research, disease-related research in its mandate, and would communicate information about the results of research between the research community and the general public. March 28, 1994.

41. Mr Cousens - Resolution - That, in the opinion of this House, recognizing that recall provides citizens with the opportunity to exercise accountability over their elected officials, and

since other jurisdictions in Canada are exploring the recall option in their provincial legislatures, and

since evidence from other jurisdictions outside of Canada indicates that recall is rarely abused, and

since the recall process should explore the ethical criteria for recall of an elected officer, and

that the process in which to initiate the recall process may involve a review of several checks and balances that could be ascertained by further guidance from legislative officials and the public,

the Standing Committee on the Legislative Assembly be required to develop a recall process for consideration by the Legislature and to present their recommendations and options to the Legislative Assembly by the Spring Session in 1995. April 27, 1994.

42. Mr Sola - Resolution - That in the opinion of this House, consumers in Ontario are in need of greater protection against sellers or lenders who make false, misleading or deceptive representations or innocent misrepresentations, than is currently provided for in consumer protection legislation such as the Business Practices Act and the Consumer Protection Act; and that to the extent to which existing legislation does offer a degree of protection to the consumer, such provisions should be more vigorously enforced, therefore the Government of Ontario should establish a select committee of this House to review existing consumer protection legislation so as to provide consumers with an improved comprehensive protection program. May 16, 1994.

43. Mr Beer - Resolution - That, in the opinion of this House, the government of Ontario should give formal legislative recognition to the profession of Early Childhood Educators, and

since early childhood educators have a large share of the responsibility for the care and education of young children in Ontario, and

since despite the importance of this profession there are no formal entry standards for early childhood educators beyond the E.C.E. diploma, and

since there are no formal standards of practice nor any mechanism to ensure that early childhood educators are held accountable for their professional conduct, and

since the Association of Early Childhood Educators, Ontario (A.E.C.E.O) is an organization of early childhood educators and concerned individuals whose objective is to improve the quality of early childhood care and education, and has long held that some form of professional regulation is required to ensure that the needs of children and families are met;

Therefore, in order to protect children and families and increase the quality of care and education of young children, the Government of Ontario should formally recognize the need for professional regulation of early childhood educators and should develop an act that prescribes, among other things, minimum entry standards, standards of practice and a code of ethics for early childhood educators. Draft legislation should be presented to this legislature no later than the end of the 1994 legislative session. May 18, 1994.

44. Ms Carter - Resolution - That, in the opinion of this House, since Canada is a signatory to the 1992 United Nations Framework Convention on Climate Change, now in force, which recognizes the catastrophic environmental, economic, and social consequences of greenhouse gas emissions and calls for decisive international action to curb these emissions; and

since the federal government has committed to a 20 per cent reduction in greenhouse gas emissions over 1988 levels by 2005, as urged by the Toronto Conference on the Changing Atmosphere and endorsed by the Ontario Round Table on Environment and Economy; and

since the federal government is working to develop a National Action Plan on Climate Change, together with the provinces and territories that will reverse the continuing trend toward higher emissions and achieve the 20 per cent target; and

since the recent Canadian Options of Greenhouse Gas Emission Reduction (COGGER) report for the Royal Society of Canada concludes that it is both technically feasible and economically beneficial to implement a 20 per cent reduction in emission levels;

Therefore this Assembly should support the federal government in its commitment to a 20 per cent reduction in Canada's greenhouse gas emissions over 1988 levels by 2005, and further support leadership on the part of Ontario in helping to develop and implement a National Action Plan to achieve this environmentally imperative goal. **Ballot Item Number 57 - To be debated today.**

Mr Cousens - Resolution - That, in the opinion of this House, recognizing that recall provides citizens with the opportunity to exercise accountability over their elected officials, and

since other jurisdictions in Canada are exploring the recall option in their provincial legislatures, and

since evidence from other jurisdictions outside of Canada indicates that recall is rarely abused, and

since the recall process should explore the ethical criteria for recall of an elected officer, and

that the process in which to initiate the recall process may involve a review of several checks and balances that could be ascertained by further guidance from legislative officials and the public,

the Standing Committee on the Legislative Assembly be required to develop a recall process for consideration by the Legislature and to present their recommendations and options to the Legislative Assembly by the Spring Session in 1995.

**Ballot Item Number 58 - To be debated today.**

Second Reading Bill 157, An Act to amend the Occupational Health and Safety Act. Mr D. Winner.

Deuxième lecture Projet de loi 157, Loi modifiant la Loi sur la santé et la sécurité au travail. M. D. Winner.

**Ballot Item Number 59 - To be debated June 2, 1994.**

Mr Sola - Resolution - That in the opinion of this House, consumers in Ontario are in need of greater protection against sellers or lenders who make false, misleading or deceptive representations or innocent misrepresentations, than is currently provided for in consumer protection legislation such as the Business Practices Act and the Consumer Protection Act; and that to the extent to which existing legislation does offer a degree of protection to the consumer, such provisions should be more vigorously enforced, therefore the Government of Ontario should establish a select committee of this House to review existing consumer protection legislation so as to provide consumers with an improved comprehensive protection program.

**Ballot Item Number 60 - To be debated June 2, 1994.**

Second Reading Bill 130, An Act to amend the Race Tracks Tax Act. Mr E. Eves.

Deuxième lecture Projet de loi 130, Loi de 1993 modifiant la Loi de la taxe sur le pari mutuel.  
M. E. Eves.

**Ballot Item Number 61 - To be debated June 9, 1994.**

Ms Carter - Resolution - That, in the opinion of this House, since Canada is a signatory to the 1992 United Nations Framework Convention on Climate Change, now in force, which recognizes the catastrophic environmental, economic, and social consequences of greenhouse gas emissions and calls for decisive international action to curb these emissions; and

since the federal government has committed to a 20 per cent reduction in greenhouse gas emissions over 1988 levels by 2005, as urged by the Toronto Conference on the Changing Atmosphere and endorsed by the Ontario Round Table on Environment and Economy; and

**Ballot Item Number 62 - To be debated June 9, 1994.**

Mr Beer - Resolution - That, in the opinion of this House, the government of Ontario should give formal legislative recognition to the profession of Early Childhood Educators, and

since early childhood educators have a large share of the responsibility for the care and education of young children in Ontario, and

since despite the importance of this profession there are no formal entry standards for early childhood educators beyond the E.C.E. diploma, and

since there are no formal standards of practice nor any mechanism to ensure that early childhood educators are held accountable for their professional conduct, and

since the Association of Early Childhood Educators, Ontario (A.E.C.E.O) is an organization of early childhood educators and concerned individuals whose objective is to improve the quality of early childhood care and education, and has long held that some form of professional regulation is required to ensure that the needs of children and families are met;

Therefore, in order to protect children and families and increase the quality of care and education of young children, the Government of Ontario should formally recognize the need for professional regulation of early childhood educators and should develop an act that prescribes, among other things, minimum entry standards, standards of practice and a code of ethics for early childhood educators. Draft legislation should be presented to this legislature no later than the end of the 1994 legislative session.

2. Mrs McLeod - Whereas the Provincial Auditor has failed to give the financial statements of the Province of Ontario his absolute approval and could only give the statements a "qualified" approval, the first time such a negative opinion has ever been presented by the Auditor concerning the financial statements of the province;

And whereas the Provincial Auditor has stated that the NDP government deliberately understated the 1992-93 deficit by delaying its annual contribution of \$528 million to the Teacher's Pension fund;

And whereas the Provincial Auditor has stated that the NDP government has under-reported the province's deficit by \$1.5 billion over the past three years because of the use of deceptive bookkeeping practices, such as the extensive use of pre-flow expense payments;

And whereas the deficit is already \$500 million higher than the Finance Minister originally estimated in his 1993-94 budget;

And whereas credit rating agencies in the United States and Canada have warned that Ontario will face a downgrade of its credit rating if the provincial deficit rises above \$10 billion;

And whereas the Provincial Auditor's reservations about the accounting practices of the Province of Ontario in the maintenance of its financial statements have thrown the integrity of the province's fiscal situation into doubt in the mind of the public;

And whereas the NDP has undertaken to make "integrity in government" the centre of an NDP administration and made specific reference to that undertaking in the first speech from the Throne;

And whereas the Liberal Caucus believes that the NDP government has shown, by its financial incompetence, that it is not fit to govern this province; therefore, pursuant to Standing Order 43(a), the House no longer has confidence in the government. October 27, 1993.

**PRIVATE MEMBERS' NOTICES OF  
MOTIONS**

**AVIS DE MOTIONS DES  
DÉPUTÉS**

20. Mr Wilson (Simcoe West) - Resolution - That, in the opinion of this House, since this Government has allocated \$647 million to the reform of long-term care services and of these funds \$150 million is coming from increased user fees to residents in long-term care facilities with the result being that many seniors, on limited incomes, will be faced with rate increases of approximately 32 percent effective immediately; and

since this Government is expected to flow the remaining \$497 million over the next four years, while residents in long-term care facilities are being forced to shoulder this 32 percent increase in year one;

therefore, the Government of Ontario should amend Bill 101, An Act to amend certain Acts concerning Long-Term Care, to ensure this increase is phased-in over the next four years, or over the time it takes the Government to complete its funding commitment. July 13, 1993.

21. Mr Mammoliti - Resolution - That, in the opinion of this House, recognizing that people are concerned about the costliness and complexity of local government, the Government of Ontario should reiterate its commitment to strong, accountable, open and accessible local government and move to implement the draft legislation package OPEN LOCAL GOVERNMENT, and further, the Government of Ontario should set up a task force to study an efficient and unified form of local government for Metropolitan Toronto. July 20, 1993.

22. Mrs Mathysen - Resolution - That, in the opinion of this House, since the Canadian magazine industry is seriously threatened by the current editorial dumping of "split-run" foreign periodicals in which advertising directed at Canadians is placed only in copies circulated in Canada; and

since foreign magazines have already recovered their editorial costs in their home markets; and

since such practises have led to discounted ad pricing, with low rates that Canadian magazines cannot match because of the costs of writing, illustration, photography and design for their content in Canada,

therefore, this House urges the Government of Ontario to support investment and growth of the Canadian magazine industry by calling upon the federal Conservative government to end "split-run" editions by vigorously enforcing current legislation which prevents "editorial dumping"; and to quickly act on the interim recommendations of the Task Force on the Canadian Magazine Industry to have any investment in magazines by a non-Canadian subject to review by Investment Canada. July 21, 1993.

23. Mr Runciman - Resolution - That, in the opinion of this House, since Ontario doctors bill the Ontario Health Insurance Plan about \$5 billion each year; and

since the cost of health care now consumes \$17 billion a year or a full third of the provincial budget; and

since the government is attempting, by all means possible, to curb health care spending; and

since 1971 the State of New York has implemented a very successful program whereby licensed practitioners are assisted by "physician assistants" who are trained to perform approximately 70 percent of the clinical procedures routinely performed by licensed general practitioners for approximately half the annual salary of licensed practitioners;

therefore, the Minister of Health should develop and introduce in this House amendments to the Regulated Health Professions Act, 1991 and other legislation as is necessary to establish the regulated health profession for Physician Assistants. July 28, 1993.

37. Mrs Sullivan - Resolution - That, in the opinion of this House, an Ontario Health Research Council should be established at the earliest possible opportunity as a Crown Corporation, with an independent Board of Directors, reporting to the legislature through the Minister of Health. The council would develop a strategic approach, set priorities, guide, co-ordinate and develop health research in Ontario, encourage public and private sector co-operation in health research, stimulate technology transfer and development, and allocate public funds to health research projects. The council would incorporate multidisciplinary evaluative research, health systems research, disease-related research in its mandate, and would communicate information about the results of research between the research community and the general public. March 28, 1994.

41. Debated May 19, 1994.

42. Mr Sola - Resolution - That in the opinion of this House, consumers in Ontario are in need of greater protection against sellers or lenders who make false, misleading or deceptive representations or innocent misrepresentations, than is currently provided for in consumer protection legislation such as the Business Practices Act and the Consumer Protection Act; and that to the extent to which existing legislation does offer a degree of protection to the consumer, such provisions should be more vigorously enforced, therefore the Government of Ontario should establish a select committee of this House to review existing consumer protection legislation so as to provide consumers with an improved comprehensive protection program. May 16, 1994.

43. Mr Beer - Resolution - That, in the opinion of this House, the government of Ontario should give formal legislative recognition to the profession of Early Childhood Educators, and

since early childhood educators have a large share of the responsibility for the care and education of young children in Ontario, and

since despite the importance of this profession there are no formal entry standards for early childhood educators beyond the E.C.E. diploma, and

since there are no formal standards of practice nor any mechanism to ensure that early childhood educators are held accountable for their professional conduct, and

since the Association of Early Childhood Educators, Ontario (A.E.C.E.O) is an organization of early childhood educators and concerned individuals whose objective is to improve the quality of early childhood care and education, and has long held that some form of professional regulation is required to ensure that the needs of children and families are met;

Therefore, in order to protect children and families and increase the quality of care and education of young children, the Government of Ontario should formally recognize the need for professional regulation of early childhood educators and should develop an act that prescribes, among other things, minimum entry standards, standards of practice and a code of ethics for early childhood educators. Draft legislation should be presented to this legislature no later than the end of the 1994 legislative session. May 18, 1994.

44. Ms Carter - Resolution - That, in the opinion of this House, since Canada is a signatory to the 1992 United Nations Framework Convention on Climate Change, now in force, which recognizes the catastrophic environmental, economic, and social consequences of greenhouse gas emissions and calls for decisive international action to curb these emissions; and

since the federal government has committed to a 20 per cent reduction in greenhouse gas emissions over 1988 levels by 2005, as urged by the Toronto Conference on the Changing Atmosphere and endorsed by the Ontario Round Table on Environment and Economy; and

since the federal government is working to develop a National Action Plan on Climate Change, together with the provinces and territories that will reverse the continuing trend toward higher emissions and achieve the 20 per cent target; and

since the recent Canadian Options of Greenhouse Gas Emission Reduction (COGGER) report for the Royal Society of Canada concludes that it is both technically feasible and economically beneficial to implement a 20 per cent reduction in emission levels;

Therefore this Assembly should support the federal government in its commitment to a 20 per cent reduction in Canada's greenhouse gas emissions over 1988 levels by 2005, and further support leadership on the part of Ontario in helping to develop and implement a National Action Plan to achieve this environmentally imperative goal. 2. Mrs McLeod - Whereas the Provincial Auditor has failed to give the financial statements of the Province of Ontario his absolute approval and could only give the statements a "qualified" approval, the first time such a negative opinion has ever been presented by the Auditor concerning the financial statements of the province;

And whereas the Provincial Auditor has stated that the NDP government deliberately understated the 1992-93 deficit by delaying its annual contribution of \$528 million to the Teacher's Pension fund;

And whereas the Provincial Auditor has stated that the NDP government has under-reported the province's deficit by \$1.5 billion over the past three years because of the use of deceptive bookkeeping practices, such as the extensive use of pre-flow expense payments;

And whereas the deficit is already \$500 million higher than the Finance Minister originally estimated in his 1993-94 budget;

And whereas credit rating agencies in the United States and Canada have warned that Ontario will face a downgrade of its credit rating if the provincial deficit rises above \$10 billion;

And whereas the Provincial Auditor's reservations about the accounting practices of the Province of Ontario in the maintenance of its financial statements have thrown the integrity of the province's fiscal situation into doubt in the mind of the public;

And whereas the NDP has undertaken to make "integrity in government" the centre of an NDP administration and made specific reference to that undertaking in the first speech from the Throne;

And whereas the Liberal Caucus believes that the NDP government has shown, by its financial incompetence, that it is not fit to govern this province; therefore, pursuant to Standing Order 43(a), the House no longer has confidence in the government. October 27, 1993.

MOTIONS**

**AVIS DE MOTIONS DES  
DÉPUTÉS**

20. Mr Wilson (Simcoe West) - Resolution - That, in the opinion of this House, since this Government has allocated \$647 million to the reform of long-term care services and of these funds \$150 million is coming from increased user fees to residents in long-term care facilities with the result being that many seniors, on limited incomes, will be faced with rate increases of approximately 32 percent effective immediately; and

since this Government is expected to flow the remaining \$497 million over the next four years, while residents in long-term care facilities are being forced to shoulder this 32 percent increase in year one;

therefore, the Government of Ontario should amend Bill 101, An Act to amend certain Acts concerning Long-Term Care, to ensure this increase is phased-in over the next four years, or over the time it takes the Government to complete its funding commitment. July 13, 1993.

21. Mr Mammoliti - Resolution - That, in the opinion of this House, recognizing that people are concerned about the costliness and complexity of local government, the Government of Ontario should reiterate its commitment to strong, accountable, open and accessible local government and move to implement the draft legislation package OPEN LOCAL GOVERNMENT, and further, the Government of Ontario should set up a task force to study an efficient and unified form of local government for Metropolitan Toronto. July 20, 1993.

22. Mrs Mathyssen - Resolution - That, in the opinion of this House, since the Canadian magazine industry is seriously threatened by the current editorial dumping of "split-run" foreign periodicals in which advertising directed at Canadians is placed only in copies circulated in Canada; and

since foreign magazines have already recovered their editorial costs in their home markets; and

since such practises have led to discounted ad pricing, with low rates that Canadian magazines cannot match because of the costs of writing, illustration, photography and design for their content in Canada,

therefore, this House urges the Government of Ontario to support investment and growth of the Canadian magazine industry by calling upon the federal Conservative government to end "split-run" editions by vigorously enforcing current legislation which prevents "editorial dumping"; and to quickly act on the interim recommendations of the Task Force on the Canadian Magazine Industry to have any investment in magazines by a non-Canadian subject to review by Investment Canada. July 21, 1993.

23. Mr Runciman - Resolution - That, in the opinion of this House, since Ontario doctors bill the Ontario Health Insurance Plan about \$5 billion each year; and

since the cost of health care now consumes \$17 billion a year or a full third of the provincial budget; and

since the government is attempting, by all means possible, to curb health care spending; and

since 1971 the State of New York has implemented a very successful program whereby licensed practitioners are assisted by "physician assistants" who are trained to perform approximately 70 percent of the clinical procedures routinely performed by licensed general practitioners for approximately half the annual salary of licensed practitioners;

therefore, the Minister of Health should develop and introduce in this House amendments to the Regulated Health Professions Act, 1991 and other legislation as is necessary to establish the regulated health profession for Physician Assistants. July 28, 1993.

37. Mrs Sullivan - Resolution - That, in the opinion of this House, an Ontario Health Research Council should be established at the earliest possible opportunity as a Crown Corporation, with an independent Board of Directors, reporting to the legislature through the Minister of Health. The council would develop a strategic approach, set priorities, guide, co-ordinate and develop health research in Ontario, encourage public and private sector co-operation in health research, stimulate technology transfer and development, and allocate public funds to health research projects. The council would incorporate multidisciplinary evaluative research, health systems research, disease-related research in its mandate, and would communicate information about the results of research between the research community and the general public. March 28, 1994.

42. Mr Sola - Resolution - That in the opinion of this House, consumers in Ontario are in need of greater protection against sellers or lenders who make false, misleading or deceptive representations or innocent misrepresentations, than is currently provided for in consumer protection legislation such as the Business Practices Act and the Consumer Protection Act; and that to the extent to which existing legislation does offer a degree of protection to the consumer, such provisions should be more vigorously enforced, therefore the Government of Ontario should establish a select committee of this House to review existing consumer protection legislation so as to provide consumers with an improved comprehensive protection program. May 16, 1994.

43. Mr Beer - Resolution - That, in the opinion of this House, the government of Ontario should give formal legislative recognition to the profession of Early Childhood Educators, and

since early childhood educators have a large share of the responsibility for the care and education of young children in Ontario, and

since despite the importance of this profession there are no formal entry standards for early childhood educators beyond the E.C.E. diploma, and

since there are no formal standards of practice nor any mechanism to ensure that early childhood educators are held accountable for their professional conduct, and

since the Association of Early Childhood Educators, Ontario (A.E.C.E.O) is an organization of early childhood educators and concerned individuals whose objective is to improve the quality of early childhood care and education, and has long held that some form of professional regulation is required to ensure that the needs of children and families are met;

Therefore, in order to protect children and families and increase the quality of care and education of young children, the Government of Ontario should formally recognize the need for professional regulation of early childhood educators and should develop an act that prescribes, among other things, minimum entry standards, standards of practice and a code of ethics for early childhood educators. Draft legislation should be presented to this legislature no later than the end of the 1994 legislative session. May 18, 1994.

44. Ms Carter - Resolution - That, in the opinion of this House, since Canada is a signatory to the 1992 United Nations Framework Convention on Climate Change, now in force, which recognizes the catastrophic environmental, economic, and social consequences of greenhouse gas emissions and calls for decisive international action to curb these emissions; and

since the federal government has committed to a 20 per cent reduction in greenhouse gas emissions over 1988 levels by 2005, as urged by the Toronto Conference on the Changing Atmosphere and endorsed by the Ontario Round Table on Environment and Economy; and

since the federal government is working to develop a National Action Plan on Climate Change, together with the provinces and territories that will reverse the continuing trend toward higher emissions and achieve the 20 per cent target; and

since the recent Canadian Options of Greenhouse Gas Emission Reduction (COGGER) report for the Royal Society of Canada concludes that it is both technically feasible and economically beneficial to implement a 20 per cent reduction in emission levels;

Therefore this Assembly should support the federal government in its commitment to a 20 per cent reduction in Canada's greenhouse gas emissions over 1988 levels by 2005, and further support leadership on the part of Ontario in helping to develop and implement a National Action Plan to achieve this environmentally imperative goal. 2. Mrs McLeod - Whereas the Provincial Auditor has failed to give the financial statements of the Province of Ontario his absolute approval and could only give the statements a "qualified" approval, the first time such a negative opinion has ever been presented by the Auditor concerning the financial statements of the province;

And whereas the Provincial Auditor has stated that the NDP government deliberately understated the 1992-93 deficit by delaying its annual contribution of \$528 million to the Teacher's Pension fund;

And whereas the Provincial Auditor has stated that the NDP government has under-reported the province's deficit by \$1.5 billion over the past three years because of the use of deceptive bookkeeping practices, such as the extensive use of pre-flow expense payments;

And whereas the deficit is already \$500 million higher than the Finance Minister originally estimated in his 1993-94 budget;

And whereas credit rating agencies in the United States and Canada have warned that Ontario will face a downgrade of its credit rating if the provincial deficit rises above \$10 billion;

And whereas the Provincial Auditor's reservations about the accounting practices of the Province of Ontario in the maintenance of its financial statements have thrown the integrity of the province's fiscal situation into doubt in the mind of the public;

And whereas the NDP has undertaken to make "integrity in government" the centre of an NDP administration and made specific reference to that undertaking in the first speech from the Throne;

And whereas the Liberal Caucus believes that the NDP government has shown, by its financial incompetence, that it is not fit to govern this province; therefore, pursuant to Standing Order 43(a), the House no longer has confidence in the government. October 27, 1993.

**PRIVATE MEMBERS' NOTICES OF  
MOTIONS**

**AVIS DE MOTIONS DES  
DÉPUTÉS**

20. Mr Wilson (Simcoe West) - Resolution - That, in the opinion of this House, since this Government has allocated \$647 million to the reform of long-term care services and of these funds \$150 million is coming from increased user fees to residents in long-term care facilities with the result being that many seniors, on limited incomes, will be faced with rate increases of approximately 32 percent effective immediately; and

since this Government is expected to flow the remaining \$497 million over the next four years, while residents in long-term care facilities are being forced to shoulder this 32 percent increase in year one;

therefore, the Government of Ontario should amend Bill 101, An Act to amend certain Acts concerning Long-Term Care, to ensure this increase is phased-in over the next four years, or over the time it takes the Government to complete its funding commitment. July 13, 1993.

21. Mr Mammoliti - Resolution - That, in the opinion of this House, recognizing that people are concerned about the costliness and complexity of local government, the Government of Ontario should reiterate its commitment to strong, accountable, open and accessible local government and move to implement the draft legislation package OPEN LOCAL GOVERNMENT, and further, the Government of Ontario should set up a task force to study an efficient and unified form of local government for Metropolitan Toronto. July 20, 1993.

22. Mrs Mathysen - Resolution - That, in the opinion of this House, since the Canadian magazine industry is seriously threatened by the current editorial dumping of "split-run" foreign periodicals in which advertising directed at Canadians is placed only in copies circulated in Canada; and

since foreign magazines have already recovered their editorial costs in their home markets; and

since such practises have led to discounted ad pricing, with low rates that Canadian magazines cannot match because of the costs of writing, illustration, photography and design for their content in Canada,

therefore, this House urges the Government of Ontario to support investment and growth of the Canadian magazine industry by calling upon the federal Conservative government to end "split-run" editions by vigorously enforcing current legislation which prevents "editorial dumping"; and to quickly act on the interim recommendations of the Task Force on the Canadian Magazine Industry to have any investment in magazines by a non-Canadian subject to review by Investment Canada. July 21, 1993.

23. Mr Runciman - Resolution - That, in the opinion of this House, since Ontario doctors bill the Ontario Health Insurance Plan about \$5 billion each year; and

since the cost of health care now consumes \$17 billion a year or a full third of the provincial budget; and

since the government is attempting, by all means possible, to curb health care spending; and

since 1971 the State of New York has implemented a very successful program whereby licensed practitioners are assisted by "physician assistants" who are trained to perform approximately 70 percent of the clinical procedures routinely performed by licensed general practitioners for approximately half the annual salary of licensed practitioners;

therefore, the Minister of Health should develop and introduce in this House amendments to the Regulated Health Professions Act, 1991 and other legislation as is necessary to establish the regulated health profession for Physician Assistants. July 28, 1993.

37. Mrs Sullivan - Resolution - That, in the opinion of this House, an Ontario Health Research Council should be established at the earliest possible opportunity as a Crown Corporation, with an independent Board of Directors, reporting to the legislature through the Minister of Health. The council would develop a strategic approach, set priorities, guide, co-ordinate and develop health research in Ontario, encourage public and private sector co-operation in health research, stimulate technology transfer and development, and allocate public funds to health research projects. The council would incorporate multidisciplinary evaluative research, health systems research, disease-related research in its mandate, and would communicate information about the results of research between the research community and the general public. March 28, 1994.

42. Mr Sola - Resolution - That in the opinion of this House, consumers in Ontario are in need of greater protection against sellers or lenders who make false, misleading or deceptive representations or innocent misrepresentations, than is currently provided for in consumer protection legislation such as the Business Practices Act and the Consumer Protection Act; and that to the extent to which existing legislation does offer a degree of protection to the consumer, such provisions should be more vigorously enforced, therefore the Government of Ontario should establish a select committee of this House to review existing consumer protection legislation so as to provide consumers with an improved comprehensive protection program. May 16, 1994.

43. Mr Beer - Resolution - That, in the opinion of this House, the government of Ontario should give formal legislative recognition to the profession of Early Childhood Educators, and

since early childhood educators have a large share of the responsibility for the care and education of young children in Ontario, and

since despite the importance of this profession there are no formal entry standards for early childhood educators beyond the E.C.E. diploma, and

since there are no formal standards of practice nor any mechanism to ensure that early childhood educators are held accountable for their professional conduct, and

since the Association of Early Childhood Educators, Ontario (A.E.C.E.O) is an organization of early childhood educators and concerned individuals whose objective is to improve the quality of early childhood care and education, and has long held that some form of professional regulation is required to ensure that the needs of children and families are met;

Therefore, in order to protect children and families and increase the quality of care and education of young children, the Government of Ontario should formally recognize the need for professional regulation of early childhood educators and should develop an act that prescribes, among other things, minimum entry standards, standards of practice and a code of ethics for early childhood educators. Draft legislation should be presented to this legislature no later than the end of the 1994 legislative session. May 18, 1994.

44. Ms Carter - Resolution - That, in the opinion of this House, since Canada is a signatory to the 1992 United Nations Framework Convention on Climate Change, now in force, which recognizes the catastrophic environmental, economic, and social consequences of greenhouse gas emissions and calls for decisive international action to curb these emissions; and

since the federal government has committed to a 20 per cent reduction in greenhouse gas emissions over 1988 levels by 2005, as urged by the Toronto Conference on the Changing Atmosphere and endorsed by the Ontario Round Table on Environment and Economy; and

since the federal government is working to develop a National Action Plan on Climate Change, together with the provinces and territories that will reverse the continuing trend toward higher emissions and achieve the 20 per cent target; and

since the recent Canadian Options of Greenhouse Gas Emission Reduction (COGGER) report for the Royal Society of Canada concludes that it is both technically feasible and economically beneficial to implement a 20 per cent reduction in emission levels;

Therefore this Assembly should support the federal government in its commitment to a 20 per cent reduction in Canada's greenhouse gas emissions over 1988 levels by 2005, and further support leadership on the part of Ontario in helping to develop and implement a National Action Plan to achieve this environmentally imperative goal. May 18, 1994.

45. Mrs Cunningham - Resolution - That, in the opinion of this House, in order to facilitate school board budgeting and planning, the Ministry of Education and Training should continue with its intent to change the school board fiscal year which now coincides with the calendar year, to coincide with the school year, September 1st to August 31st. May 31, 1994.
